WHAT WILL THE SENATE DO?

The Tariff Reform Bill Seems to Have Placed That Body in a Peculiar Predicament.

WASHINGTON, July 24.—Democrats are well pleased with the result of the tariff fight in the house. The number of their partisans who voted against the bill is so small, compared with the predictions that were so freely made at the beginning of the session, that there is a general feeling that the democrats in congress have harmonized and organized in a way that will be of great service to the democratic ticket in the presidential campaign. The failure of the republican leaders to agree upon a substitute shows a real demoralization among them. As things stand now there is less division and faction on the tariff among the democrats than there is among the republicans. The persistent declaration of leading republicans that the democratic party was merely a wholesale destruction of American industries, and that the measure reported by the committee on ways and means was a free trade bill, has

OVERLEAPED ITSELF.

It has stimulated the democrats to an explanation which explains. The people have had more education on the tariff since December last than they had in a dozen years before, and they will be able to grasp the fact that the Mills bill is a measure for an equitable revision of the tariff and a much needed reduction in taxation. They will comprehend the situation in spite of the misrepresentations of republican politicians. The senate has an embarrassing contract on its hands. It can not possibly, if it keeps within cannon shot of the republican "declaration of principles" at Chicago, produce a bill that will be as acceptable to the people as that which has just passed the house. The upper branch of congress will simply stand in the way of a democratic house of representatives and a democratic president obeying the demands of the people for the removal of unnecessary burdens of taxation.

THE MARKETS.

GOES UP IN SMOKE!

One of the Largest Shoe Factories in the Country is Burned at Cincinnati This Morning.

CINCINNATI, July 24.—About 4 o'clock this morning a watchman discovered a fire in the second story of the six story shoe factory of Krippendorf, Dittman & Co., at the corner of Sycamore and New streets. Engine house No. 4 was not more than 200 feet distant and the alarm was instantly given, but before the department could begin its fight the flames had reached the elevator and spread to all the upper floors.

Then began a desperate contest of almost the entire department to mitigate the calamity so as to save the adjoining structures, and they succeeded.

Every glass in the large shoe factory of Blackergerstle & Co., a hundred feet away, was broken by the heat and the window frames were scorched and almost on fire, but by constant watch the building was saved. The south wall fell outward, burying beneath it two humble dwellings on the south side of New street, from which the occupants had been removed. The other walls, except the front and a portion of the rear, fell, one destroying a dwelling on North street. The front wall is in a very dangerous condition and must be torn down.

The factory is one of the largest and best equipped in the country and was engaged in the manufacture of a fine quality of women's shoes. It had the best and most expensive machinery, valued at $100,000. The building was put up especially for the purpose two years ago, at a cost of $70,000. The stock and manufactured goods on hand were inventoried a few days ago at $140,000. The loss on everything is total, making the loss $310,000. The insurance altogether amounts to $161,000. The employes thrown out of work are 550, of whom 350 are women and girls. The origin of the fire is a mystery. There was no fire in the building and the workmen were on the second floor at late as this morning.

HORSE WHIPS FOR A REVIVALIST.

A Salvation Army Captain Thoroughly Welted by Indignant Marylanders.

ELLICOTT CITY, Md., July 24.—A year ago Captain McElroy, of the Salvation Army, established a station here. When he was transferred from Ellicot City two months ago McElroy had become engaged to a respectable girl. A few days after his departure it was learned by friends of the girl that he had a wife and family at Gettsburg, Pa.

The religious captain came to town last night again to assist in a revival. A dozen young men, who are friends of the family of the young lady referred to, went to the Salvation Army headquarters, seized McElroy, escorted him to the outskirts of town where they welted him with horsewhips and warned him never to enter the gates of Ellicott City again.

THE IRON MOULDERS.

They Elect Officers for the Ensuing Year.

ST. LOUIS, July 24.—The Iron Molders' union of North America, in session here for the past two weeks, selected the following officers for the ensuing year: President, P. Fitzpatrick, Cincinnati; vice-president and organizer, James P. Hooley, New York; treasurer, John O. Keefe, Troy, N. Y.; secretaries, Martin Fox, Cincinnati, and R. H. Metcalfe, Canada. Executive board, John G. Weaker, Cincinnati; John Kenney, Norwich, Conn.; Wm. Campbell, Quincy, Ill.; P. E. Dillon, Savannah, Ga.

The next meeting will be held at Detroit.

JUDGE THURMAN.

He is Invited to Go Up in Michigan to Speak.

COLUMBUS, O., July 24.—C. A. Ward, collector of customs of Port Huron, Mich., and J. G. Neill and J. R. Whiting, of Washington, representatives in congress, called on Judge Thurman today as a committee from the Port Huron democratic club and extended an invitation for him to be present at a mass meeting at Port Huron in August. The date of the meeting will be left to the convenience of Judge Thurman, should he conclude to accept.

THE GUILTY PAIR.

Moore and Mrs. Norton Found Living Together in Idaho Springs.

DENVER, July 24.—A telegram from Idaho Springs, a watering place thirty miles west of here, says that Editor Moore and Mrs. Norton, of St. Louis, arrived there Saturday, and are living at a hotel as man and wife.

Four Cadets Dismissed for Hazing.

WASHINGTON, July 24.—The following naval cadets were yesterday dismissed from the service as a result of the recent hazing court-martial trials at Annapolis: Richard H. Leigh, Mississippi; George H. Shepard, Wisconsin; Bion B. Bierrer, Kansas, and Charles W. Lyle, Virginia.

THE PACIFIC COAST.

The Grand Jury of San Francisco Speak Out, and Not in Very Complimentary Terms of Their Chinese Citizens.

SAN FRANCISCO, July 24.—The grand jury, composed of nineteen representative men, have made a startling report, in which they are justified in asserting that in San Francisco crime is organized. Our elections, primarily and finally, are controlled to a great extent by twelve to fifteen hundred members of the criminal element, leagued together and rendering "quid pro quo," having so-called "pals" among the men in authority and others influential with those having power.

A reciprocity exists between criminals, prostitutes, gamblers and bossism and the policemen seem not to meet the requirements of the situation.

Speaking of the Chinese quarters the report says: "This San Francisco sodom, with all its loathsome features, has become so familiar that it has ceased to inspire horror among our citizens. Its gambling dens, brothels and opium joints flourish in spite of the police and its inhabitants live in foul kennels, which stifle visitors with unbearable stenches."

CLEVELAND WILL WIN.

The Opinion of Dr. Brooks, the Prohibition Vice-Presidential Candidate.

INDIANAPOLIS, July 24.—Dr. Brooks, the prohibition candidate for the vice-presidency, was in the city for a few moments yesterday. He speaks in glowing terms of prohibition prospects. He says that his meeting in this state have been largely attended, and he believes the vote will be much larger than in 1884.

In answer to a question as to the relative strength of the two old parties he said: "From what I have seen and heard I think the chances are favorable to the re-election of Mr. Cleveland In Minnesota the republican disaffection is among the thousands of Scandinavians who have hitherto voted with the party, but who are now either going to the prohibitionists or democrats. The republican whisky plank has hurt the party very much.

JEALOUSY CAUSED THEIR ARREST.

In Fleeing from His Second Wife a Bigamist Husband is Captured.

MONTICELLO, Ill., July 24.—Sheriff Miller, of Piatt county, arrested Oscar Cook and his wife, of Galesville, a short time ago, charging them with bigamy. They were indicted by the grand jury, but escaped, going to Indiana, where they ran a restaurant until Oscar got tired and jealous of his wife and took all the money and left her, returning to Mansfield, where his wife telegraphed Constable Littleton to arrest him, which he did.

She followed Cook to Mansfield, where she in turn was arrested by Sheriff Miller and placed in jail. Neither one had secured a divorce before marrying. Mrs. Cook's brother, George H. Foster, post master at Galesville, went on her bond and she was released. Cook is still in jail at Monticello.

FIRE IN A MONTANA THEATRE.

The Grand Opera House Burned at the Beginning of the Evening Performance.

BUTTE, M. T., July 24.—The Grand Opera house, valued at $60,000, was destroyed by fire last evening. The Adele Payne company was billed, and the curtain had just been rung up when the fire caught in the curtain and immediately spread to the wings. The building was entirely destroyed, with the contents. The Odd Fellows hall, adjoining, was also destroyed, as well as the building occupied by M. G Cohn & Co, print dealers, who saved their entire stock of goods. This is one of the most disastrous fires that has visited Butte for years, destroying one of the finest buildings in the city. No lives were lost.

A GAY POLICEMAN.

One of the Grand Rapids Force Elopes With a Much Married Woman.

GRAND RAPIDS, Mich., July 24.—Policeman Slighter quietly left the city last week on a furlough, accompanied by a young woman whom he loved and supposed to be single. It was sort of an elopement, she representing that her friends objected to receiving his attentions, and that she came here from Chicago to escape marriage with a man whom her family liked. Last night her brother arrived in the city and says she is already a wife, with a husband in Chicago, who is hunting for her.

Robert Garrett Opens His Purse.

WHEELING, W. Va., July 24.—Among the contributions to the relief fund for the sufferers by the recent flood, received yesterday, was one of $1,000 from Robert Garrett, of the Baltimore and Ohio railroad company.

THEY'LL HAVE ONE!

Republican Senators Working Night and Day on a Tariff Bill to Present to the Senate.

WASHINGTON. July 24.—Senators Allison and Aldrich say the sub committee of the finance committee are working night and day on a republican tariff bill and they believe the sub committee will have the measure ready to report to a full committee early next week and that not more than two weeks will be required by the full committee to have the bill ready to report to the senate. This will put the bill on the calendar about the 10th or 15th of August.

The senate bill was passed, prohibiting the transmission through the mails, in transparent envelopes, of matter which would be prohibited if printed or written outside the envelope.

The resolution to print 5,000 additional copies of the report of the senate committee on pensions on the subject of the veto of pension bills, was taken up, the question being on Cockrell's amendment to print 10,000 copies of the vetoes in the last and present congress. Mr. Cockrell explained the object which he had in suggesting the printing of the veto message in the Doherty case.

HOUSE.

On motion of Lawler, of Illinois, the senate bill was passed appropriating $200,000 for the erection of a public building at Chicago, Ill., to be used as an appraiser's warehouse.

ADDITIONAL LOCAL.

Lee Pattie is on the sick list.

Mr. Gart Shober, editor of the *Journal*, is quite sick.

Henry Winklemeyer, who has been on the sick list, is now slowly convalescing.

Hon. Eli W. Brown and Mr. Phillip Anthes, of Columbia City, are in the city.

Judge and Mrs. Wes McBride, Waterloo; H. M. Musselman, Delphos, are guests of the Aveline.

The Misses Carrie Knode and Carrie Erwin will spend a week at Rome City before going to Chicago.

Charles Kintz and Minnie Meyers, Christian Sutorns and Lizzie Mueller, have been licensed to wed.

Dr. and Mrs. W. H. Myers and Miss Annie White, daughter of Congressman White leave to-night on a European tour.

Miss Lena Miller, of Napoleon, Ohio, is in the city. She leaves to-morrow for Illinois to visit her sister, Mrs. George H. Reed.

Miss Linnie Blaugh and Miss Lillian Stribly, of Union street went to Huntington to-day to visit friends for the next two weeks.

Mr. R. T. McDonald and Colonel Slattery entertained an electric light party from Chicago, last night. They were guests of the Wayne.

Ad. H. Sielken, Indianapolis; A. H. Van Vleet, Grand Rapids; J. A. McQuillan, New York; J. D. McEvoy, New York, are at the Wayne.

The Indianapolis city council, last night, decided to light the center of the city with the Brush electric light and the outskirts with gas. This is a virtual defeat for the Jenney company.

Miss Anna White and Dr. and Mrs. W. H. Myers will leave for Europe tonight, at 8 o'clock, where they will attend the British Medical association, which meets in Glasgow in August.

Mr. Lent Williamson, of Bluffton, was in the city to-day, en route home from Northern Michigan, where he has a cottage on the lake front. Mrs. Williamson and children will remain north during the heated term.

Mr. Jesse Hamlet asks THE SENTINEL to express his heartfelt thanks to the members of the Patriarchal Circle and other friends for the kindness and sympathy manifested in the recent death of his brother, Mr. John Hamlet, the Pittsburg brakeman.

Miss Ella Smith, who was taken so dangerously sick on Sunday night, at the Commercial house, was a victim of poisoning by some person who had designs against either her honor or her life. She was out during the early part of the evening and after her return was taken suddenly and violently sick. Investigation revealed the fact that she had been secretly administered some deadly drug and for many hours was in danger of losing her life from its effects. She suspicions an employe of a saloon in the east end as one of the parties to the infamy. The above would be a good case for the prosecutor to work on, provided enough evidence can be secured to get indictments against the persons implicated.

THE "Q" STRIKERS.

ST. JOSEPH, Mo., July 24.—A joint meeting of the locomotive engineers, firemen, switchmen and brakemen to consider the Burlington strike convened this morning. About 700 delegates were present, representing the lodges of the United States, Canada and Mexico.

Great care was taken to keep the proceedings as quiet as possible, but on a close search a short-hand man was found concealed in the chandelier. He was marched to the police headquarters through the streets in his bare feet, where he is still confined. Charges will be preferred against him this afternoon.

HIS LAST CASE.

Chief Justice M. F. Fuller Won a Victory in the Chicago Courts This Morning.

CHICAGO, July 24.—Chief Justice M. W. Fuller won a victory in Judge Baker's court this morning—the last, perhaps, he will gain as a lawyer—in the suit of the Illinois Central railroad company against Brenton C. Wells, to eject Wells from a foot wide strip of a hundred feet in length, which the railroad claimed belonged to its right of way, Wells gained the case, but Judge Baker set aside the decision and granted a new trial on the ground of insufficiency of proof of Wells possessions.

STATE AUDITOR CARR.

A Leading Republican Officer Denounces the Colored Voters.

The Indianapolis *World*, the organ of the colored voters of Indiana, has this startling bit of news:

A few days ago we dropped into the auditor's office to chat a little with Auditor Carr and were congratulating him upon the republican prospects, when to our astonishment Mr. Carr said, "I would not walk ten steps to keep a colored man from voting the democratic ticket." And added, "Do you know that a great many republicans are beginning to think that we made a mistake in passing the fifteenth amendment?" As we had said nothing to draw out such a startling remark, we must admit we were for an instant somewhat dumfounded, but managed to recover ourselves sufficient to resent the uncalled for insult in the rather forcible manner. We told him that as we were anxious to see the republican party win in this campaign, we hoped that if he had any interest in the success of the party, he would do no more of that kind of talking. We do not believe that Mr. Carr voices the sentiment of the republican party in such wild utterances. He is a very clever gentleman, but does not seem to have very well defined ideas of negro manhood if he thinks they will not resent such insults. Mr. Carr will probably be renominated, and will have no show of election without the support of the 10,000 negro voters in the state. In 1886 he was elected by the small majority of 2,995 out of a total of over 400,000, and yet he would not walk ten steps to secure a colored man's vote. Is not a colored man's vote worth as much as an Irishman's, a German's or any other man's? And ought not the same effort be made to get a colored man's vote as is made to secure the vote of any other citizen? We are glad that the republican party is not responsible for the senseless remarks made by some of its members, and would advise the managers that it might be a good thing to use the muzzle on some of them.

COLONEL M'DONALD.

He is Stirring up the Politicians on His Candidacy.

Col. I. B. McDonald, of Columbia City, was in town last evening and is in no pleasant frame of mind. He had understood, as a joint senatorial candidate, that the convention between the two counties was not to be called until after the congressional convention. He figured that if an Allen county man was nominated for congress his chances of being the joint senatorial nominee would grow brighter, on the ground that the outside counties would get something.

Now he recognizes that the calling of the joint senatorial convention before the congressional convention means his defeat by Hon. Fred J. Hayden, of this city. He thinks the outside congressional candidates will conspire to nominate Mr. Hayden and then cry "hog Allen" on Messrs. Bell, O'Rourke and Spencer. Mr. McDonald was about seeing these gentlemen last night, but what solace he secured is not known. Mr. Hayden has the forty-four delegates of this county pledged to him against fourteen for Colonel McDonald from Whitley county. This, of course, gives Mr. Hayden a walk away unless other influences prevail between now and the date of the convention.

The election of Hon. Montgomery Hamilton as chairman in this county, and the fact that he and Hon Wm. F. McNagny, a candidate for congress from Whitley county, had the calling of the convention settled the colonels fate, as Mr. Hamilton is a personal friend of Mr. Hayden, and Mr. McNagny could enhance his congressional chances by nominating an Allen county man for joint senator.

Booming Colonel Robertson.

The following letter was sent out today to the republicans in this city:

FORT WAYNE, July 23, 1888.

DEAR SIR:—A meeting of a few of Colonel Robertson's friends will be held at his office Tuesday evening, July 24, at 7:30, to consider the question of organization for the state convention.

You are earnestly requested to be present.

J. B. HARPER,
H. C. HANNA, } Com.

It is timely that the republicans are taking action in the matter. If Colonel Robertson receives the support he should, he can be nominated for governor and no republican in the state deserves the honor over him.

LET HIM FIGHT IT.

Adolph Spreckles Enroute to Philadelphia to Run a Big Sugar Refinery and Fight the Trust.

CHICAGO, July 24.—Adolph Spreckles, son of Claus Spreckles, the sugar refiner. left here last evening enroute from San Francisco for Philadelphia. He goes to live permanently at Philadelphia and take charge of a great refinery which is being built there. He says Philadelphia is the only place from which the trust can be properly fought, because its facilities as a seaport are unequaled, and that when the refinery open in June, the public will get the benefit of their fight.

PIONEERS COMING.

The Meeting of the Maumee Valley Association Quite an Event.

The forthcoming session of the Maumee Valley Monumental association in this city, August 15, is a national event, as it seeks to have congress mark the battle fields of this territory with appropriate buildings or monuments.

ENTOMBED IN A BANK VAULT.

Locked In by Mistake and Released by Telephone Just in Time to Save His Life.

LOUISVILLE, July 24—A very peculiar accident happened to Mr. Rush Fay, book-keeper for Messrs. J. L. Danforth, yesterday afternoon. About eight o'clock he entered the vault to secure some papers and while busily engaged there his fellow book keeper, not dreaming any one was inside the vault, threw the combination, entombing Mr. Fay.

The latter gentleman remained buried alive for some time and, not being able to make himself heard, was about giving up the ghost when he remembered the telephone was situated inside the vault. He telephoned his situation to the Central Telephone station, and assistance was sent to the gentleman. It came not much too soon, for Mr. Fay was about exhausted from the stifling air in the vault.

THE FIRST GUN.

The New York, Mahoning and Western Road Looming up.

OTTAWA, Ohio, July 24.—Sunday the first excursion train ran over the Mahoning road. Five cars loads of people from Findlay and other points along the line arrived here about 11 a. m. They were accompanied by the Northwestern band of Findlay, who discoursed some very good music, amidst which Col J. L. H. Long was called upon and delivered a very spicy little speech of welcome, appropriate to the occasion. Over ninety persons took dinner at the Leopold house, after which the guests were invited to the court house, where toasts were made and drank, but not a single person got boozy.

Among the crowd notably were: R. Haskell, D. Joy, A. O Ballard, J. O. Reed, J. R. Rothchild, Wm. Chadever, T. E. Anderson, J. A. Sutton, John B. G. Aull, W. E. Snider, W. A. Byal, A. H. Balsley, C. S. Wade, E. M. Canfield, S. J. Siddell, W. R. Brock, D. A. Winkler. At 3:50 p. m. the crowd, accompanied by about as many more from Ottawa and vicinity, boarded the train for Findlay and everyone was happy.

To-day a regular passenger and express train will be put upon the road.

Child Horribly Burned.

LIMA, Ohio, July 24.—Yesterday afternoon, while Clarence Fuller, aged 3, was playing around a brush fire, his clothing caught fire, and his legs were burned to a crisp and his body burned so badly that large pieces of flesh fell from the bones. He can not live.

Smith Will Fight Conley.

NEW YORK, July 24.—A London telegram says: Smith accepts Conley's challenge to fight in England or on the continent for £1,000 or £2,000 a side, Smith giving Conley £100 expenses.

Lived Thirty-Eight Days on Water.

BAY CITY, Mich., July 24.—Olio Hoover, aged seventy-eight years, and demented, living at West Bay City, who has been living for thirty-eight days up to yesterday without taking food of any kind, is existing only on water. No one can induce him to break his fast. He is very weak and emaciated.

You Carry

A whole medicine chest in your pocket, with one box of Ayer's Pills. As they operate directly on the stomach and bowels, they indirectly affect every other organ of the body. When the stomach is out of order, the head is affected, digestion fails, the blood becomes impoverished, and you fall an easy victim to any prevalent disease. Miss M. E. Boyle, of Wilkesbarre, Pa., puts the whole truth in a nutshell, when she says: "**I use no other medicine than Ayer's Pills.** They are all that any one needs, and just splendid to save money in doctors' bills."

Here is an instance of

A Physician

who lost his medicine chest, but, having at hand a bottle of Ayer's Pills, found himself fully equipped.—J. Arrison, M. D., of San José, Cal., writes:

"Some three years ago, by the merest accident, I was forced, so to speak, to prescribe Ayer's Cathartic Pills for several sick men among a party of engineers in the Sierra Nevada mountains, my medicine chest having been lost in crossing a mountain torrent. I was surprised and delighted at the action of the Pills, so much so, indeed, that I was led to a further trial of them, as well as of your Cherry Pectoral and Sarsaparilla. I have nothing but praise to offer in their favor."

John W. Brown, M. D., of Oceana, W. Va., writes: "I prescribe Ayer's Pills in my practice, and find them excellent. I urge their general use in families."

T. E. Hastings, M. D., of Baltimore, Md., writes: "That Ayer's Pills do control and cure the complaints for which they are designed, is as conclusively proven to me as anything possibly can be. They are the best cathartic and aperient within the reach of the profession."

CHAIRMAN JEWETT, of the democratic state committee, has been ill for a week, but is on duty again. Mr. Jewett has the confidence of the democracy of the state.

THE republican program now is to nominate Mr. Porter for governor and Colonel Robertson for lieutenant governor. The first should be last and the last first.

GENERAL HARRISON has been instructed to forego the pleasure of shaking hands with his callers. The general's impaired health is given as a reason, but the truth is that the icy statesman chills one into democracy at every hand shake.

THE council proceedings elsewhere are of vital interest to every tax payer. The board of equalization shows a substantial reduction from the assessor's valuation and does this without increasing the tax levy or the operating expenses of the municipal departments. The affairs of the city, more especially its finances, are in safe and competent hands.

THE independent colored voters will hold a convention at Indianapolis tomorrow. The colored men are at last asserting their liberty and right to a free vote, unshackled by republican assumption of ownership. This makes State Auditor Carr cry out: "Do you know that a great many republicans are beginning to think we made a mistake in passing the fifteenth amendment."

COLONEL JAMES H. RICE has returned from California, where he spent three weeks on business, but in the meantime gave some attention to politics. He is full of views, hopes and predictions. He thinks that Colorado is pretty certain to go republican, but that the democrats have more than an even chance for victory in California. The democrats, he says, are well organized, harmonious and enthusiastic, while the republicans are divided into factions and are apparently indifferent. He thinks that the free wool feature of the Mills bill will not aid the republicans much, because, while an immense amount of wool is produced in the state, the flocks are owned by a comparatively few men. Speaking of Indiana, Colonel Rice said: "With a favorite son in the field Indiana is going to be very close, but I have not the slightest doubt she will do as she did in 1884. Harrison will be strong in the cities, but in the rural districts the full democratic vote will be polled."

THE GAZETTE TOUCHED UP.

To the Editor of the Sentinel.

In the *Gazette* of a recent issue the editor frantically waves his ancient hand and says: "A correspondent in the Chicago *Tribune*, writing from Manitoba, says this country raises 5,000,000 more bushels of wheat than it can use, and were it not for the 'iniquitous' tariff, could be sold to the Minneapolis mills." This is undoubtedly the utterance of a paid correspondent in the interest of the tariff plunderers. They dominate every branch of industry and watch every opportunity to misrepresent and hinder the farmer in the hope of keeping his nose to the grind-stone and rob him going and coming. The farmers of Minnesota have evidently not heard of this terrible danger which lies lurking in ambush just over the line and prowls along with famished frame ready to devour them at the first opportunity. The following is a part of the resolutions adopted by the republican Fifth congressional district convention held at St. Cloud, Minn., on the second Tuesday in June:

Resolved, That we insist upon a material and judicious reduction of the tariff, &c.

Resolved, That we highly appreciate the services of our congressman, Kunte Nelson, and feel a pride in the honorable distinction so justly attained by him. We heartily approve of his efforts to regulate inter state commerce and secure a reform and reduction of the tariff, and his action therefore has been in accord with the plainly expressed will of the republican party of this district.

At the election of 1886, Mr. Nelson received his districts unanimous vote with the exception of 1,200 prohibition votes. Mr. Nelson would have been reelected by the republicans of the fifth congressional district of Minnesota, but he absolutely refused a renomination. Either the republican farmers of Minnesota are not afraid of the wheat interest of Manitoba or they do not know of its dangerous existence. As a sincere tariff reformer I am in favor of Minnesota farmers being informed of this cereal dragon in Manitoba, so that they may vote intelligently and to their own interests. Now take this straw from 3,500 voters in the fifth district of Minnesota and lay it by the side of the Hon. J. B. White's little straw, viz: That protection is a good thing for the manufacturers but a bad thing for the laboring man and the "democratic lightning calculator" finds the grand total to be two very significant straws, either one of which is enough to break the republican free whisky laden camels back. W.

PENSIONS.

What a Democratic Administration Has Done For the Soldier and His Family.

WASHINGTON, July 23.—A comparison has been made of the number of applications for pensions during the fiscal year ending July 1, 1885, four months after President Cleveland's inauguration, with the number during the fiscal year ending July 1, 1888, is as follows:

	1888.	1885
Invalid	47,394	26,900
Widows	18,355	11,170
Increase	116,285	66,590
Total	181,989	104,669

The average force in the pension office in '85 was 66¼; in 1888, 49¾.

The number of applications filed during the past fiscal year in excess of the number filed in 1885 were as follows:

Invalid	20,440
Widows	7,185
Increased	74,695
Total	107,530

IT WON'T BAKE BREAD.—In other words, Hood's Sarsaparilla will not do impossibilities. Its proprietors tell plainly what it has done, submit proofs from sources of unquestioned reliability, and ask you frankly if you are suffering from any disease or affection caused or promoted by impure blood or low state of the system, to try Hood's Sarsaparilla. The experience of others is sufficient assurance that you will not be disappointed in the result.

Base Ball.

The following is the result of yesterday afternoon's games:

National League—Indianapolis, 2; Chcago, 1. Detroit, 1; Pittsburg, 5. Philadelphia, 3; Washington, 4. New York, 2; Boston, 0.

American Association.—Louisville, 10; St. Louis, 4. Cleveland, 6; Baltimore, 2.

If you wish to restore the bloom to your wasted cheek, and so improve your health that plumpness and strength will succeed emaciation and debility, purify your blood with Ayer's Sarsaparilla. This remedy will benefit you more surely and speedily than any other.

Ninth Ward Democrats.

The democrats of the Ninth ward are requested to meet this evening at the grocery of John Figel, on Wells street, near High street, for the purpose of making arrangements for the organization of a Ninth ward Jeffersonian club.

I have been a great sufferer from catarrh for over ten years; had it very bad, could hardly breathe. Some nights I could not sleep—had to walk the floor. I purchased Ely's Cream Balm and am using it freely, it is working a cure surely. I have advised several friends to use it, and with happy results in every case. It is the one medicine above all others made to cure catarrh, and it is worth its weight in gold. I thank God I have found a remedy I can use with safety and that does all that is claimed for it. It is curing my deafness.—B. W. Sperry, Hartford, Conn.

Have You Any Idea What It Costs
TO MAKE A CHICAGO DAILY NEWS?

You haven't? Well, let us give you just a glimpse into the business, perhaps it will interest you.

To begin with, the work of the paper is divided into Seventeen Different Departments, each under its own responsible Superintendent. Let us take them in order as they stand on the weekly pay-roll:—

1. The Editorial Department.—This includes managing editors, city editors, telegraph editors, exchange editors, editorial writers, special writers, and about thirty reporters. THE DAILY NEWS staff is admittedly without a superior in the West, and numbers 56
2. The Telegraph Room.—To save time special wires are run into THE DAILY NEWS building, and the paper's own operators take the messages and hand them immediately to the telegraph editor. The number of operators is 3
3. The Compositor's Room.—When "copy" has passed the hands of the proper revising editor it goes to the type-setter. There are a good many of him in THE DAILY NEWS office—on an average . . 73
4. The Linotype Room.—But the compositor doesn't do all the type-setting. The "Linotype" machine "sets type" by casting a-line-of-type, on somewhat the same principle as the type-founder casts a single type. Fourteen of these machines are in use in THE DAILY NEWS office, and the number of persons required in this department is 29
5. The Artists' and Engravers' Department.—But the metropolitan daily now gives its readers not only reading matter, but also illustrations. By the aid of good artists, zinc etchers and photography by electric light THE DAILY NEWS is now printing the best newspaper illustrations in America. This takes the best service of skilled workers to the number of 7
6. The Stereotype Foundry.—The matter—type and pictures—being now "locked up" in the "forms" the work is next transferred to the foundry. A metropolitan daily no longer prints from its type. In order to print a large edition quickly it is necessary to *multiply the printing surfaces*, and this is accomplished by casting duplicate stereotyped plates, from which, after they have been fastened to the presses, the printing is done. Of stereotypers THE DAILY NEWS requires 8
7. The Press Room.—THE DAILY NEWS uses six double perfecting presses, capable of printing 100,000 complete papers per hour. To run these there are required men to the number of 26
8. The Mailing and Delivery Department.—"The mailers" and the delivery clerks handle over a million papers a week. The force numbers 25
9. The Engine Room.—To supply the motive power requires three steam boilers of 175 horse-power capacity, and three engines with an aggregate of 270 horse-power. All departments are lighted by the Edison incandescent system, which here comprises three dynamo machines and 500 lamps. The employes of this department number 5
10. The Circulation Department.—The paper is now a manufactured article, and it is the business of this department to develop the market for it. The average number of workers is 16
11. The Subscription Room.—All the subscriptions from out-of-town, whether of individual readers or wholesale news agents, pass through this department, and this department employs on the average . . . 17
12. The Business Office.—The general clerical work of the paper, such as receiving and caring for the advertisements—of which over fifteen hundred are received and handled every day—receiving and paying out cash, the general bookkeeping of the business, requires a counting-room force of 27
13. The Care of Building requires the constant service of three janitors 3
14. The Watchman.—To insure perfect protection against risk of fire two watchmen are constantly on duty 2
15. The New York Office.—This engages the entire time of a general manager and assistant 2
16. The Washington Bureau.—In charge of its own special Washington staff correspondent 1
17. The Milwaukee Bureau.—To facilitate Northwestern news gathering, one man 1

From which it appears that the number of regular employees is 302

And the pay roll runs from $5,500 to $6,000 per week, aggregating during the year $300,000.

Then there is even a larger annual expenditure for white paper, and telegraph and cable tolls sometimes run nearly a thousand dollars a week. Take it all together the expenditures of THE DAILY NEWS for the year 1888 will vary very little from $900,000.

The foregoing takes no account of the special correspondents at hundreds of places throughout the country; of European correspondents; of fifteen hundred news agents throughout the Northwest who distribute THE DAILY NEWS to its out of town readers; of two hundred city carriers; of forty-two wholesale city dealers with their horses and wagons; of one hundred and fifty branch advertisement offices throughout the city, all connected with the main office by telephone, nor of the about three thousand newsboys who make a living, in whole or in part, selling THE DAILY NEWS in Chicago. This is what it costs the publisher to make a CHICAGO DAILY NEWS. It costs the reader to buy it one cent a day. Measured by the cost of its production, THE DAILY NEWS is worth its price, *isn't it?* The Chicago Daily News is sold by all newsdealers, or will be mailed, postage paid, for $3.00 per year, or 25 cents per month. Williamsport, Ind., Oct. 3, 1887.
Having been afflicted with neuralgia for the past four years, and trying almost everything, but in vain, I finally heard of Athlophoros. After taking one bottle I found it to be helping me, and after taking four bottles of Athlophoros and one of Pills, I found that I was entirely well. I think the medicine is positively a sure cure.

His Talk with the Children.

Shildren, I like to shpeak mit you a leedle about some history. It vhas awful nice dot you know all about who you vhas und vhy you vhas porn in dis country instead of Shina. How many of you know about dot shentleman called Christopher Columbus? All! Vhell, dot vhas good. I shall now tell you of his life.

Vhen Christopher Columbus vhas a shmall poy, nopody takes him to be shmart. He vhas no shmarter ash my poy Shake. He vhas werry quiet. Sometimes he goes out by an apple tree und sits down und doan' shpeak to nopody for two hours. If some poy comes along und asks him to go fishing he doan' eafen look oop. He vhas buried mit reflection, und his mudder called him seex times before he comes to dinner. What vhas dot reflection, shildren? Does he reflection on how he shall puy him a horse or a gun? Vhas he reflection on how he shall run avhay und become some cowpoy und Injun-killer? Oh, no! He vhas no sooch poy ash dot.

Eafen at der early age of swelve years Christopher doan' believe dot Spain vhas all dis world. He beliefs he can go west und find some new country und people. He doan' say so, for maybe his fadder would lick him, und der school-master would call him a fool, but he keeps right on mit his thinking. Vhen some poy wants him to go after coons he doan' go, und if some games of base ball vhas around he nefer go to see her. All der time he vhas thinking about dot undiscovered country out West behind der ocean, but he doan' shpeak of him to nopody. If he does he vhas called some fools und idits, und maybe he get a ride mit der patrol wagon.

Vhell, dot poy grows oop to be a man, und nopody can tell if he vhas thinking of politics or religion. One day he goes py der King und Queen und says he like to set out und find America. He doan' haf no money nor ships, und he like dot King to foot all der bills. Shiminy! but how dot King laughs all oafer him, and how dot Queen shpeaks to Columbus if his mudder knows he vhas outdoors! Columbus vhas so come oafer by confusion dot he goes right avhay und hides himself, und it vhas in der society news in der Sunday papers dot he vhas out of town.

Vhell, time goes on und Columbus feels petter. He doan' gif oop yet. He vhas like der toothache. Der more he thinks der harder he aches. He peliefs in America, und at last he goes py some rich mans und asks him to shpeak mit der King some more. So it vhas brought about at last dot der King gifs his consent und fits out three ships. He doan' pelief in Columbus, however, und he says to him:

"If you find dot America it vhas all O. K. If you doan' find her I send you by der work house so long as you live. Now go avhay und write me some postal cards occasionally und let me know if you vhas in good health."

Columbus vhas shaking in his boots, but he sails avhay und goes out of sight. In a few days somebody vhas awful scart und vhants to go back. Columbus buys him off mit feefty cents. Pooty soon some more sailors vhas scart, und a little later on eaferypody begins to holler "fire!" und "police!" No land vhas in sight any more, und der peoples belief dey should be drowned. Columbus bribed und threatened und coaxed, und if a man vhas too bad he puts a head on him. At last he must gif oop. He shtands all alone. He calls der people around him und says:

"Doan' be so fresh. I pelief we vhas almost to America. I can shmell some Chicago River, und we shall keep on tree days more. If we doan' come py him den ve shall go back home, und doan' you forget her?"

Dot vhas brave in him, und great vhas his reward. In two days somepody cries out: "Land ho!" und pooty queek all dose ships vhas by America. Columbus goes ashore und sees some Injuns und says he likes to be friends, und vhen a tousand vhas come around him he says:

"Fellow-citizens, it vhas no use. You vhas discovered, und I like you to make der best of her. Hooray for us! If you like to behave yourselves, I gif you some looking-glasses. If you like to fight, I vhill clean you out in two minutes by some clocks! Let me know at your earliest convenience how your feelings vhas."

Vhell, dose Injuns see dot he can't be bluffed, und so dey make friends mit him. He loads up mit wood und shtones und such tings, hires some Injuns to go home mit him und sails avhay for Spain. It was like some Fourth of Shuly vhen he comes pack. Some cannon shoots off, drums beat, flags fly und eaferypody yells out: "Hooray! I told you so!" Columbus goes py der King und Queen und he makes a speech und shows all dot he prings home, und der King shteps down und feels of his head und says:

"You vhas a hustler from Hustletown, und if I doan' put you in der legislature und make some of those old moss-backs look seek den I vhas no shentlemans!"

Und der Queen shteps down und shmiles on him und says:

"Behold a great man! Nopody else in all dis world vhas knee-high to a grass-hopper. Come und haf some dinner mit us!"

Und dot vhas how we vhas discovered, shildren, und dot vhas all I haf to tell you.—*Detroit Free Press.*

NOTES ON SCIENCE.

TO MAKE an ink for hand stamps that will not injure the rubber, mix together and dissolve from two to four drams of any selected aniline color, fifteen ounces of alcohol, and fifteen ounces of glycerine. The solution is poured on the cushion and rubbed in with a brush.

YELLOW diamonds are made blue of the purest water, for the time being, by being colored with a common indelible blue pencil, equalized by a rubbing with cotton or linen. A magnifying glass will fail to show the fraud, but alcohol, turpentine, or benzine will wash off the color.

FUMIGATION is said to have originated with Acron, a physician of Agrigentum, who is said to have first caused great fires to be lighted and aromatics to be thrown into them to purify the air, and thus to have stopped the plague at Athens and other places in Greece about 473 B. C.

AMONG the results of experiments made to ascertain the temperature at which various seeds germinate are the following: Rye and wheat at 32 degrees, barley and oats at 35; corn required 48, the turnip 32, the pea 35, the beet 40. The seed were planted in vegetable mold that was kept in receptacles heated to various temperatures.

TO CLEAN marble statuary, or any marble surface which has become soiled by dust and finger-marks, mix quick-lime with strong lye so as to form a mixture having the consistency of cream and apply to it at once with a brush. Allow the composition to remain for a day or two, and then wash it off with soap and water, whereupon the marble will appear as though it was new.

A REMARKABLE imitation of black walnut may be manufactured from poor pine, the quality and appearance of the article being such as to defy detection except upon very close examination. To accomplish, one part of walnut peel extract is mixed with six parts of water, and with this solution the wood is coated. When the material is half dry, a solution of bichromate of potash, with water, is rubbed on it, and the made walnut is ready for use.

A VERY good quality of artificial ivory can be manufacted from the bones and hides of animals. The bones are macerated and bleached in chloride of lime for two weeks; then heated by steam, together with the hides, until a fluid mass is formed, and to this a small quantity of alum is added. After filtering and drying in the air it is hardened in an alum bath, and yields white, tough plates, which closely resemble ivory, and are more easily worked than the natural product.

Not a particle of calomel, nor any other deleterious substance, enters into the composition of Ayer's Pills. On the contrary, this medicine is carefully compounded from the curative properties of purely vegetable substances. Try it.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle. mar-17-1y

Excursions to Niagara Falls on Nickel Plate special train, July 28th, 1888, may enjoy a rare view of the grand and awful gorges of the Niagara river below the great whirlpool by taking observation train to Lewiston and return.

MAGNOLIA BALM

Is no paint or rouge. 'Tis a lovely Liquid, instantly applied to Face, Neck, Arms and hands. Harmless!

WHAT AILS YOU?

Do you feel dull, languid, low-spirited, lifeless, and indescribably miserable, both physically and mentally; experience a sense of fullness or bloating after eating, or of "goneness," or emptiness of stomach in the morning, tongue coated, bitter or bad taste in mouth, irregular appetite, dizziness, frequent headaches, blurred eyesight, "floating specks" before the eyes, nervous prostration or exhaustion, irritability of temper, hot flushes, alternating with chilly sensations, sharp, biting, transient pains here and there, cold feet, drowsiness after meals, wakefulness, or disturbed and unrefreshing sleep, constant, indescribable feeling of dread, or of impending calamity?

If you have all, or any considerable number of these symptoms, you are suffering from that most common of American maladies—Bilious Dyspepsia, or Torpid Liver, associated with Dyspepsia, or Indigestion. The more complicated your disease has become, the greater the number and diversity of symptoms. No matter what stage it has reached, **Dr. Pierce's Golden Medical Discovery** will subdue it, if taken according to directions for a reasonable length of time. If not cured, complications multiply and Consumption of the Lungs, Skin Diseases, Heart Disease, Rheumatism, Kidney Disease, or other grave maladies are quite liable to set in and, sooner or later, induce a fatal termination.

Dr. Pierce's Golden Medical Discovery acts powerfully upon the Liver, and through that great blood-purifying organ, cleanses the system of all blood-taints and impurities, from whatever cause arising. It is equally efficacious in acting upon the Kidneys, and other excretory organs, cleansing, strengthening, and healing their diseases. As an appetizing, restorative tonic, it promotes digestion and nutrition, thereby building up both flesh and strength. In malarial districts, this wonderful medicine has gained great celebrity in curing Fever and Ague, Chills and Fever, Dumb Ague, and kindred diseases.

Dr. Pierce's Golden Medical Discovery

CURES ALL HUMORS,

from a common Blotch, or Eruption, to the worst Scrofula. Salt-rheum, "Fever-sores," Scaly or Rough Skin, in short, all diseases caused by bad blood are conquered by this powerful, purifying, and invigorating medicine. Great Eating Ulcers rapidly heal under its benign influence. Especially has it manifested its potency in curing Tetter, Eczema, Erysipelas, Boils, Carbuncles, Sore Eyes, Scrofulous Sores and Swellings, Hip-joint Disease, "White Swellings," Goitre, or Thick Neck, and Enlarged Glands. Send ten cents in stamps for a large Treatise, with colored plates, on Skin Diseases, or the same amount for a Treatise on Scrofulous Affections.

"FOR THE BLOOD IS THE LIFE."

Thoroughly cleanse it by using **Dr. Pierce's Golden Medical Discovery,** and good digestion, a fair skin, buoyant spirits, vital strength and bodily health will be established.

CONSUMPTION,

which is **Scrofula of the Lungs,** is arrested and cured by this remedy, if taken in the earlier stages of the disease. From its marvelous power over this terribly fatal disease, when first offering this now world-famed remedy to the public, Dr. Pierce thought seriously of calling it his "CONSUMPTION CURE," but abandoned that name as too restrictive for a medicine which, from its wonderful combination of tonic, or strengthening, alterative, or blood-cleansing, anti-bilious, pectoral, and nutritive properties, is unequaled, not only as a remedy for Consumption, but for **all Chronic Diseases** of the

Liver, Blood, and Lungs.

For Weak Lungs, Spitting of Blood, Shortness of Breath, Chronic Nasal Catarrh, Bronchitis, Asthma, Severe Coughs, and kindred affections, it is an efficient remedy.

Sold by Druggists, at **$1.00,** or Six Bottles for **$5.00.**

Some fellow writes the *Gazette* a letter, trying to account for the democratic majority in this county. There is not a sensible point in the communication, save an extract from THE SENTINEL. A man might handle the question at issue and get a respectful hearing without going out of his way to insult the German people, whom he vaguely classes as "Swabenfritses" and "Winnerwurst Bills." The *Gazette* ought to send its fool killer after that correspondent.

Captain Diehl and a chosen posse of police officers visited the gaming parlors of Latham and Harmon, on Calhoun street, last night, and captured a social party of ten, who put up $17 each and signed pleas of guilty. There are four other faro rooms on Calhoun street. Let the good work go around. It is proper and doesn't smack of favoritism. Besides this the gaming business must be suppressed and the law says their utensils shall be confiscated and destroyed.

The Business Men's exchange held a lively meeting last evening. The necessity of a free public library was discussed, as was also the feasability of the exchange erecting a board of trade building of its own. A committee composed of Messrs. S. Pottlitzer, G. W. Seavy and Fred Eckart was appointed to pledge the support of the business community to the Postal Telegraph company in the event of that company extending its line to this city. An effort will be made to bring the company to this city. It now has a line at Auburn.

The *Gazette* this morning reprints a letter from W. H. Smith, to the Cincinnati *Commercial Gazette*. This is the same Smith who was Harrison's lieutenant in the latters preliminary canvass for the presidential nomination. It will be recalled that when General Harrison and Mr. Smith visited this city the *Gazette* denounced Smith as a "liar," and "a disreputable scoundrel" and advised General Harrison to not associate with him. Mr. Smith has not changed since the *Gazette* sized him up. The *Gazette* readers can take Mr. Smith's words for what they are worth.

Mr. S. Henderson, foreman of the Pittsburg copper shops, returned from Chicago last evening.

The Grand Rapids is having a big travel to Rome City this week during the session of the assembly.

The Wabash road paid off its employes to-day and the boys are now well fixed for their excursion Thursday.

Fred Myers, foreman at the Bass works, has returned from a visit at Huntington, where he spent Sunday.

Arthur Pickard, bill clerk at the Bass foundry and machine works, has gone to Rome City on a week's vacation.

J. C. Lindsay, assistant civil engineer of the Pennsylvania company, left last evening on the limited for Philadelphia.

S. K. Blair, trainmaster on the Nickel Plate, returned from Chicago to-day, where he was on business for the company.

The Pennsylvania company's base ball club went to Columbia City to-day to play a game with the club from that place.

Orion Ross, assistant ticket agent at the Pittsburg office, is acting as night agent during the absence of Frank Bissell.

Several of the employes at the Pittsburg machine shops are off duty on account of repairs that are in progress in that department.

The new testing room at the Jenney Electric Light company has been fitted up in an elaborate manner and is now ready for occupancy.

The Wabash took seventy-three delegates from this city, this morning, to attend the Lutheran synod, which is being held at Evansville this week.

William Duttman, a moulder at the Bass works, has been off duty for several days on account of the death of his child and the serious illness of his wife.

A new passenger train has been put on the Grand Rapids which runs every day between Kalamazoo, Mich., and Rome City during the session of the Assembly.

George Koorsen, of Olds' wheel works, is doing honors over the arrival of a pretty baby daughter at his home Sunday, and is receiving many congratulations.

Chas. L. McElfatrick, formerly a machinist at the Pennington works, is now at Huntington, Ind., where he has a good position with the Chicago and Atlantic shops.

Geo. W. Crance, of Olds' wheel works, is being congratulated over the advent of a new boy at his home. The little fellow arrived Sunday and is handsomer than his father.

The Pennsylvania railroad company is investing $300,000 in additions to its great car shops at Altoona. The new works will give employment to 200 skilled mechanics.

Mr. Perry Griffin, general agent of the passenger department of the Wabash, with headquarters at Chicago, was in the city to-day, looking after the interests of his company.

A. J. You, of the grievance committee of the Brotherhood of Locomotive Engineers of this city, returned yesterday from Chicago. He has little to say, but believes that the backbone of the strike is broken.

John B. Blaising and Stephen Brown, of the Bass works, were out in the country Sunday hunting berries. John is inclined to tell several big snake stories which even a newspaper reporter has not the cheek to attempt to palm off as truths.

Yesterday, for the first time this summer, all the Nickel Plate locomotives in the Fort Wayne and Stony Island round houses were pressed into service on account of a rush of freight traffic which, it is thought, will continue for at least two weeks.

The Pennsylvania has downed the quickest record of cattle transportation between Chicago and Philadelphia. It recently carried a train from Chicago to Philadelphia in thirty-seven hours and twenty minutes, the cattle all being in good condition on arrival.

France, Great Britian and Germany each have five miles of railway to every 10,000 inhabitants, Austria three and one-half miles and Russia a trifle less than two miles. On the other hand the United States has twenty-four miles for every 10,000 inhabitants.

An examination of the official time-tables for June, made by the *Railroad Engineering Journal*, shows that the fastest trains now scheduled are two on the Baltimore and Ohio, which are timed to run the forty miles from Baltimore to Washington in forty five minutes, without stops, making the rate of speed 53.3 miles an hour. No other train can be found which makes over fifty miles an hour, and the nearest approach to it is a train on the Pennsylvania railroad, which runs from Jersey City to Philadelphia, making one stop, at an average speed of 48.3 miles an hour.

WHAT WILL THE SENATE DO?

The Tariff Reform Bill Seems to Have Placed That Body in a Peculiar Predicament.

WASHINGTON, July 24.—Democrats are well pleased with the result of the tariff fight in the house. The number of their partisans who voted against the bill is so small, compared with the predictions that were so freely made at the beginning of the session, that there is a general feeling that the democrats in congress have harmonized and organized in a way that will be of great service to the democratic ticket in the presidential campaign. The failure of the republican leaders to agree upon a substitute shows a real demoralization among them. As things stand now there is less division and faction on the tariff among the democrats than there is among the republicans. The persistent declaration of leading republicans that the democratic party was merely a wholesale destruction of American industries, and that the measure reported by the committee on ways and means was a free trade bill, has

OVERLEAPED ITSELF.

It has stimulated the democrats to an explanation which explains. The people have had more education on the tariff since December last than they had in a dozen years before, and they will be able to grasp the fact that the Mills bill is a measure for an equitable revision of the tariff and a much needed reduction in taxation. They will comprehend the situation in spite of the misrepresentations of republican politicians. The senate has an embarrassing contract on its hands. It can not possibly, if it keeps within cannon shot of the republican "declaration of principles" at Chicago, produce a bill that will be as acceptable to the people as that which has just passed the house. The upper branch of congress will simply stand in the way of a democratic house of representatives and a democratic president obeying the demands of the people for the removal of unnecessary burdens of taxation.

GOES UP IN SMOKE!

One of the Largest Shoe Factories in the Country is Burned at Cincinnati This Morning.

CINCINNATI, July 24.—About 4 o'clock this morning a watchman discovered a fire in the second story of the six story shoe factory of Krippendorf, Dittman & Co., at the corner of Sycamore and New streets. Engine house No. 4 was not more than 200 feet distant and the alarm was instantly given, but before the department could begin its fight the flames had reached the elevator and spread to all the upper floors.

Then began a desperate contest of almost the entire department to mitigate the calamity so as to save the adjoining structures, and they succeeded.

Every glass in the large shoe factory of Blackergerstle & Co., a hundred feet away, was broken by the heat and the window frames were scorched and almost on fire, but by constant watch the building was saved. The south wall fell outward, burying beneath it two humble dwellings on the south side of New street, from which the occupants had been removed. The other walls, except the front and a portion of the rear, fell, one destroying a dwelling on North street. The front wall is in a very dangerous condition and must be torn down.

The factory is one of the largest and best equipped in the country and was engaged in the manufacture of a fine quality of women's shoes. It had the best and most expensive machinery, valued at $100,000. The building was put up especially for the purpose two years ago, at a cost of $70,000. The stock and manufactured goods on hand were inventoried a few days ago at $140,000. The loss on everything is total, making the loss $310,000. The insurance altogether amounts to $161,000. The employes thrown out of work are 550, of whom 350 are women and girls. The origin of the fire is a mystery. There was no fire in the building and the workmen were on the second floor at late as this morning.

HORSE WHIPS FOR A REVIVALIST.

A Salvation Army Captain Thoroughly Welted by Indignant Marylanders.

ELLICOTT CITY, Md., July 24.—A year ago Captain McElroy, of the Salvation Army, established a station here. When he was transferred from Ellicot City two months ago McElroy had become engaged to a respectable girl. A few days after his departure it was learned by friends of the girl that he had a wife and family at Gettsburg, Pa.

The religious captain came to town last night again to assist in a revival. A dozen young men, who are friends of the family of the young lady referred to, went to the Salvation Army headquarters, seized McElroy, escorted him to the outskirts of town where they welted him with horsewhips and warned him never to enter the gates of Ellicott City again.

THE IRON MOULDERS.

They Elect Officers for the Ensuing Year.

ST. LOUIS, July 24.—The Iron Molders' union of North America, in session here for the past two weeks, selected the following officers for the ensuing year: President, P. Fitzpatrick, Cincinnati; vice-president and organizer, James P. Hooley, New York; treasurer, John O. Keefe, Troy, N. Y.; secretaries, Martin Fox, Cincinnati, and R. H. Metcalfe, Canada. Executive board, John G. Weaker, Cincinnati; John Kenney, Norwich, Conn.; Wm. Campbell, Quincy, Ill.; P. E. Dillon, Savannah, Ga.

The next meeting will be held at Detroit.

JUDGE THURMAN.

He is Invited to Go Up in Michigan to Speak.

COLUMBUS, O., July 24.—C. A. Ward, collector of customs of Port Huron, Mich., and J. G. Neill and J. B. Whiting, of Washington, representatives in congress, called on Judge Thurman today as a committee from the Port Huron democratic club and extended an invitation for him to be present at a mass meeting at Port Huron in August. The date of the meeting will be left to the convenience of Judge Thurman, should he conclude to accept.

THE GUILTY PAIR.

Moore and Mrs. Norton Found Living Together in Idaho Springs.

DENVER, July 24.—A telegram from Idaho Springs, a watering place thirty miles west of here, says that Editor Moore and Mrs. Norton, of St. Louis, arrived there Saturday, and are living at a hotel as man and wife.

Four Cadets Dismissed for Hazing.

WASHINGTON, July 24.—The following naval cadets were yesterday dismissed from the service as a result of the recent hazing court-martial trials at Annapolis: Richard H. Leigh, Mississippi; George H. Shepard, Wisconsin; Blon B. Bierrer, Kansas, and Charles W. Lyle, Virginia.

THE PACIFIC COAST.

The Grand Jury of San Francisco Speak Out, and Not in Very Complimentary Terms of Their Chinese Citizens.

SAN FRANCISCO, July 24.—The grand jury, composed of nineteen representative men, have made a startling report, in which they are justified in asserting that in San Francisco crime is organized. Our elections, primarily and finally, are controlled to a great extent by twelve to fifteen hundred members of the criminal element, leagued together and rendering "quid pro quo," having so-called "pals" among the men in authority and others influential with those having power.

A reciprocity exists between criminals, prostitutes, gamblers and bossism and the policemen seem not to meet the requirements of the situation.

Speaking of the Chinese quarters the report says: "This San Francisco sodom, with all its loathsome features, has become so familiar that it has ceased to inspire horror among our citizens. Its gambling dens, brothels and opium joints flourish in spite of the police and its inhabitants live in foul kennels, which stifle visitors with unbearable stenches."

CLEVELAND WILL WIN.

The Opinion of Dr. Brooks, the Prohibition Vice-Presidential Candidate.

INDIANAPOLIS, July 24.—Dr. Brooks, the prohibition candidate for the vice-presidency, was in the city for a few moments yesterday. He speaks in glowing terms of prohibition prospects. He says that his meeting in this state have been largely attended, and he believes the vote will be much larger than in 1884.

In answer to a question as to the relative strength of the two old parties he said: "From what I have seen and heard I think the chances are favorable to the re-election of Mr. Cleveland In Minnesota the republican disaffection is among the thousands of Scandinavians who have hitherto voted with the party, but who are now either going to the prohibitionists or democrats. The republican whisky plank has hurt the party very much.

JEALOUSY CAUSED THEIR ARREST.

In Fleeing from His Second Wife a Bigamist Husband is Captured.

MONTICELLO, Ill., July 24.—Sheriff Miller, of Piatt county, arrested Oscar Cook and his wife, of Galesville, a short time ago, charging them with bigamy. They were indicted by the grand jury, but escaped, going to Indiana, where they ran a restaurant until Oscar got tired and jealous of his wife and took all the money and left her, returning to Mansfield, where his wife telegraphed Constable Littleton to arrest him, which he did.

She followed Cook to Mansfield, where she in turn was arrested by Sheriff Miller and placed in jail. Neither one had secured a divorce before marrying. Mrs. Cook's brother, George H. Foster, post master at Galesville, went on her bond and she was released. Cook is still in jail at Monticello.

FIRE IN A MONTANA THEATRE.

The Grand Opera House Burned at the Beginning of the Evening Performance.

BUTTE, M. T., July 24.—The Grand Opera house, valued at $60,000, was destroyed by fire last evening. The Adele Payne company was billed, and the curtain had just been rung up when the fire caught in the curtain and immediately spread to the wings. The building was entirely destroyed, with the contents. The Odd Fellows hall, adjoining, was also destroyed, as well as the building occupied by M. G Cohn & Co, print dealers, who saved their entire stock of goods. This is one of the most disastrous fires that has visited Butte for years, destroying one of the finest buildings in the city. No lives were lost.

A GAY POLICEMAN.

One of the Grand Rapids Force Elopes With a Much Married Woman.

GRAND RAPIDS, Mich., July 24.—Policeman Slighter quietly left the city last week on a furlough, accompanied by a young woman whom he loved and supposed to be single. It was sort of an elopement, she representing that her friends objected to receiving his attentions, and that she came here from Chicago to escape marriage with a man whom her family liked. Last night her brother arrived in the city and says she is already a wife, with a husband in Chicago, who is hunting for her.

Robert Garrett Opens His Purse.

WHEELING, W. Va., July 24.—Among the contributions to the relief fund for the sufferers by the recent flood, received yesterday, was one of $1,000 from Robert Garrett, of the Baltimore and Ohio railroad company.

THEY'LL HAVE ONE!

Republican Senators Working Night and Day on a Tariff Bill to Present to the Senate.

WASHINGTON July 24.—Senators Allison and Aldrich say the sub committee of the finance committee are working night and day on a republican tariff bill and they believe the sub committee will have the measure ready to report to a full committee early next week and that not more than two weeks will be required by the full committee to have the bill ready to report to the senate. This will put the bill on the calendar about the 10th or 15th of August.

The senate bill was passed, prohibiting the transmission through the mails, in transparent envelopes, of matter which would be prohibited if printed or written outside the envelope.

The resolution to print 5,000 additional copies of the report of the senate committee on pensions on the subject of the veto of pension bills, was taken up, the question being on Cockrell's amendment to print 10,000 copies of the vetoes in the last and present congress. Mr. Cockrell explained the object which he had in suggesting the printing of the veto message in the Doherty case.

HOUSE.

On motion of Lawler, of Illinois, the senate bill was passed appropriating $200,000 for the erection of a public building at Chicago, Ill., to be used as an appraiser's warehouse.

ADDITIONAL LOCAL.

Lee Pattie is on the sick list.

Mr. Gart Shober, editor of the *Journal*, is quite sick.

Henry Winkelmeyer, who has been on the sick list, is now slowly convalescing.

Hon. Eli W. Brown and Mr. Phillip Anthes, of Columbia City, are in the city.

Judge and Mrs. Wes. McBride, Waterloo; H. M. Musselman, Delphos, are guests of the Aveline.

The Misses Carrie Knode and Carrie Erwin will spend a week at Rome City before going to Chicago.

Charles Kintz and Minnie Meyers, Christian Sutorns and Lizzie Mueller, have been licensed to wed.

Dr. and Mrs. W. H. Myers and Miss Annie White, daughter of Congressman White leave to-night on a European tour.

Miss Lena Miller, of Napoleon, Ohio, is in the city. She leaves to-morrow for Illinois to visit her sister, Mrs. George H. Reed.

Miss Lizzie Blaugh and Miss Lillian Stribly, of Union street went to Huntington to-day to visit friends for the next two weeks.

Mr. R. T. McDonald and Colonel Slattery entertained an electric light party from Chicago, last night. They were guests of the Wayne.

Ad. H. Sielken, Indianapolis; A. H. Van Vleet, Grand Rapids; J. A. McQuillan, New York; J. D. McEvoy, New York, are at the Wayne.

The Indianapolis city council, last night, decided to light the center of the city with the Brush electric light and the outskirts with gas. This is a virtual defeat for the Jenney company.

Miss Anna White and Dr. and Mrs. W. H. Myers will leave for Europe to-night, at 8 o'clock, where they will attend the British Medical association, which meets in Glasgow in August.

Mr. Lent Williamson, of Bluffton, was in the city to-day, en route home from Northern Michigan, where he has a cottage on the lake front. Mrs. Williamson and children will remain north during the heated term.

Mr. Jesse Hamlet asks THE SENTINEL to express his heartfelt thanks to the members of the Patriarchal Circle and other friends for the kindness and sympathy manifested in the recent death of his brother, Mr. John Hamlet, the Pittsburg brakeman.

Miss Ella Smith, who was taken so dangerously sick on Sunday night, at the Commercial house, was a victim of poisoning by some person who had designs against either her honor or her life. She was out during the early part of the evening and after her return was taken suddenly and violently sick. Investigation revealed the fact that she had been secretly administered some deadly drug and for many hours was in danger of losing her life from its effects. She suspicions an employe of a saloon in the east end as one of the parties to the infamy. The above would be a good case for the prosecutor to work on, provided enough evidence can be secured to get indictments against the persons implicated.

THE "Q" STRIKERS.

ST. JOSEPH, Mo., July 24.—A joint meeting of the locomotive engineers, firemen, switchmen and brakemen to consider the Burlington strike convened this morning. About 700 delegates were present, representing the lodges of the United States, Canada and Mexico.

Great care was taken to keep the proceedings as quiet as possible, but on a close search a short-hand man was found concealed in the chandelier. He was marched to the police headquarters through the streets in his bare feet, where he is still confined. Charges will be preferred against him this afternoon.

HIS LAST CASE.

Chief Justice M. F. Fuller Won a Victory in the Chicago Courts This Morning.

CHICAGO, July 24.—Chief Justice M. W. Fuller won a victory in Judge Baker's court this morning—the last, perhaps, he will gain as a lawyer—in the suit of the Illinois Central railroad company against Brenton C. Wells, to eject Wells from a foot wide strip of a hundred feet in length, which the railroad claimed belonged to its right of way. Wells gained the case, but Judge Baker set aside the decision and granted a new trial on the ground of insufficiency of proof of Wells possessions.

STATE AUDITOR CARR.

A Leading Republican Officer Denounces the Colored Voters.

The Indianapolis *World*, the organ of the colored voters of Indiana, has this startling bit of news:

A few days ago we dropped into the auditor's office to chat a little with Auditor Carr and were congratulating him upon the republican prospects, when to our astonishment Mr. Carr said, "I would not walk ten steps to keep a colored man from voting the democratic ticket." And added, "Do you know that a great many republicans are beginning to think that we made a mistake in passing the fifteenth amendment?" As we had said nothing to draw out such a startling remark, we must admit we were for an instant somewhat dumfounded, but managed to recover ourselves sufficient to resent the uncalled for insult in the rather forcible manner. We told him that as we were anxious to see the republican party win in this campaign, we hoped that if he had any interest in the success of the party, he would do no more of that kind of talking. We do not believe that Mr. Carr voices the sentiment of the republican party in such wild utterances. He is a very clever gentleman, but does not seem to have very well defined ideas of negro manhood if he thinks they will not resent such insults. Mr. Carr will probably be renominated, and will have no show of election without the support of the 10,000 negro voters in the state. In 1886 he was elected by the small majority of 2,995 out of a total of over 400,000, and yet he would not walk ten steps to secure a colored man's vote. Is not a colored man's vote worth as much as an Irishman's, a German's or any other man's? And ought not the same effort be made to get a colored man's vote as is made to secure the vote of any other citizen? We are glad that the republican party is not responsible for the senseless remarks made by some of its members, and would advise the managers that it might be a good thing to use the muzzle on some of them.

COLONEL M'DONALD.

He is Stirring up the Politicians on His Candidacy.

Col. I. B. McDonald, of Columbia City, was in town last evening and is in no pleasant frame of mind. He had understood, as a joint senatorial candidate, that the convention between the two counties was not to be called until after the congressional convention. He figured that if an Allen county man was nominated for congress his chances of being the joint senatorial nominee would grow brighter, on the ground that the outside counties would get something.

Now he recognizes that the calling of the joint senatorial convention before the congressional convention means his defeat by Hon. Fred J. Hayden, of this city. He thinks the outside congressional candidates will conspire to nominate Mr. Hayden and then cry "hog Allen" on Messrs. Bell, O'Rourke and Spencer. Mr. McDonald was about seeing these gentlemen last night, but what solace he secured is not known. Mr. Hayden has the forty-four delegates of this county pledged to him against fourteen for Colonel McDonald from Whitley county. This, of course, gives Mr. Hayden a walk away unless other influences prevail between now and the date of the convention.

The election of Hon. Montgomery Hamilton as chairman in this county, and the fact that he and Hon. Wm. F. McNagny, a candidate for congress from Whitley county, had the calling of the convention settled the colonels fate, as Mr. Hamilton is a personal friend of Mr. Hayden, and Mr. McNagny could enhance his congressional chances by nominating an Allen county man for joint senator.

Booming Colonel Robertson.

The following letter was sent out today to the republicans in this city:

FORT WAYNE, July 23, 1888.

DEAR SIR:—A meeting of a few of Colonel Robertson's friends will be held at his office Tuesday evening, July 24, at 7:30, to consider the question of organization for the state convention.

You are earnestly requested to be present.

J. B. HARPER, } Com.
H. C. HANNA, }

It is timely that the republicans are taking action in the matter. If Colonel Robertson receives the support he should, he can be nominated for governor and no republican in the state deserves the honor over him.

LET HIM FIGHT IT.

Adolph Spreckles Enroute to Philadelphia to Run a Big Sugar Refinery and Fight the Trust.

CHICAGO, July 24.—Adolph Spreckles, son of Claus Spreckles, the sugar refiner, left here last evening enroute from San Francisco for Philadelphia. He goes to live permanently at Philadelphia and take charge of a great refinery which is being built there. He says Philadelphia is the only place from which the trust can be properly fought, because its facilities as a seaport are unequaled, and that when the refinery opens in June, the public will get the benefit of their fight.

ENTOMBED IN A BANK VAULT.

Locked In by Mistake and Released by Telephone Just in Time to Save His Life.

LOUISVILLE, July 24—A very peculiar accident happened to Mr. Rush Fay, book-keeper for Messrs. J. L. Danforth, yesterday afternoon. About eight o'clock he entered the vault to secure some papers and while busily engaged there his fellow book-keeper, not dreaming any one was inside the vault, threw the combination, entombing Mr. Fay.

The latter gentleman remained buried alive for some time and, not being able to make himself heard, was about giving up the ghost when he remembered the telephone was situated inside the vault. He telephoned his situation to the Central Telephone station, and assistance was sent to the gentleman. It came not much too soon, for Mr. Fay was about exhausted from the stifling air in the vault.

THE FIRST GUN.

The New York, Mahoning and Western Road Looming up.

OTTAWA, Ohio, July 24.—Sunday the first excursion train ran over the Mahoning road. Five cars loads of people from Findlay and other points along the line arrived here about 11 a. m. They were accompanied by the Northwestern band of Findlay, who discoursed some very good music, amidst which Col. J. L. H. Long was called upon and delivered a very spicy little speech of welcome, appropriate to the occasion. Over ninety persons took dinner at the Leopold house, after which the guests were invited to the court house, where toasts were made and drank, but not a single person got boozy.

Among the crowd notably were: R. Haskell, D. Joy, A. C. Ballard, J. O. Reed, J. R. Rothchild, Wm. Chadover, T. E. Anderson, J. A. Sutton, John B. G. Aull, W. E. Snider, W. A. Bysl, A. H. Balsley, C. S. Wade, E. M. Canfield, S. J. Siddell, W. R. Brock, D. A. Winkler. At 3:50 p. m. the crowd, accompanied by about as many more from Ottawa and vicinity, boarded the train for Findlay and everyone was happy.

To-day a regular passenger and express train will be put upon the road.

Child Horribly Burned.

LIMA, Ohio, July 24.—Yesterday afternoon, while Clarence Fuller, aged 8, was playing around a brush fire, his clothing caught fire, and his legs were burned to a crisp and his body burned so badly that large pieces of flesh fell from the bones. He can not live.

Smith Will Fight Conley.

NEW YORK, July 24.—A London telegram says: Smith accepts Conley's challenge to fight in England or on the continent for £1,000 or £2,000 a side, Smith giving Conley £100 expenses.

Lived Thirty-Eight Days on Water.

BAY CITY, Mich., July 24.—Otto Hoover, aged seventy-eight years, and demented, living at West Bay City, who has been living for thirty-eight days up to yesterday without taking food of any kind, is existing only on water. No one can induce him to break his fast. He is very weak and emaciated.

You Carry

A whole medicine chest in your pocket, with one box of Ayer's Pills. As they operate directly on the stomach and bowels, they indirectly affect every other organ of the body. When the stomach is out of order, the head is affected, digestion fails, the blood becomes impoverished, and you fall an easy victim to any prevalent disease. Miss M. E. Boyle, of Wilkesbarre, Pa., puts the whole truth in a nutshell, when she says: "I use no other medicine than Ayer's Pills. They are all that any one needs, and just splendid to save money in doctors' bills."

Here is an instance of

A Physician

who lost his medicine chest, but, having at hand a bottle of Ayer's Pills, found himself fully equipped.—J. Arrison, M. D., of San José, Cal.; writes:

"Some three years ago, by the merest accident, I was forced, so to speak, to prescribe Ayer's Cathartic Pills for several sick men among a party of engineers in the Sierra Nevada mountains, my medicine chest having been lost in crossing a mountain torrent. I was surprised and delighted at the action of the Pills, so much so, indeed, that I was led to a further trial of them, as well as of your Cherry Pectoral and Sarsaparilla. I have nothing but praise to offer in their favor."

John W. Brown, M. D., of Oceana, W. Va., writes: "I prescribe Ayer's Pills in my practice, and find them excellent. I urge their general use in families."

T. E. Hastings, M. D., of Baltimore, Md., writes: "That Ayer's Pills do control and cure the complaints for which they are designed, is as conclusively proven to me as anything possibly can be. They are the best cathartic and aperient within the reach of the profession."

CHAIRMAN JEWETT, of the democratic state committee, has been ill for a week, but is on duty again. Mr. Jewett has the confidence of the democracy of the state.

THE republican program now is to nominate Mr. Porter for governor and Colonel Robertson for lieutenant governor. The first should be last and the last first.

GENERAL HARRISON has been instructed to forego the pleasure of shaking hands with his callers. The general's impaired health is given as a reason, but the truth is that the icy statesman chills one into democracy at every hand shake.

THE council proceedings elsewhere are of vital interest to every tax payer. The board of equalization shows a substantial reduction from the assessor's valuation and does this without increasing the tax levy or the operating expenses of the municipal departments. The affairs of the city, more especially its finances, are in safe and competent hands.

THE independent colored voters will hold a convention at Indianapolis tomorrow. The colored men are at last asserting their liberty and right to a free vote, unshackled by republican assumption of ownership. This makes State Auditor Carr cry out: "Do you know that a great many republicans are beginning to think we made a mistake in passing the fifteenth amendment."

COLONEL JAMES H. RICE has returned from California, where he spent three weeks on business, but in the meantime gave some attention to politics. He is full of views, hopes and predictions. He thinks that Colorado is pretty certain to go republican, but that the democrats have more than an even chance for victory in California. The democrats, he says, are well organized, harmonious and enthusiastic, while the republicans are divided into factions and are apparently indifferent. He thinks that the free wool feature of the Mills bill will not aid the republicans much, because, while an immense amount of wool is produced in the state, the flocks are owned by a comparatively few men. Speaking of Indiana, Colonel Rice said: "With a favorite son in the field Indiana is going to be very close, but I have not the slightest doubt she will do as she did in 1884. Harrison will be strong in the cities, but in the rural districts the full democratic vote will be polled."

THE GAZETTE TOUCHED UP.

To the Editor of the Sentinel.

In the *Gazette* of a recent issue the editor frantically waves his ancient hand and says: "A correspondent in the Chicago *Tribune*, writing from Manitoba, says this country raises 5,000,000 more bushels of wheat than it can use, and were it 'not for the 'iniquitous' tariff, could be sold to the Minneapolis mills." This is undoubtedly the utterance of a paid correspondent in the interest of the tariff plunderers. They dominate every branch of industry and watch every opportunity to misrepresent and hinder the farmer in the hope of keeping his nose to the grind-stone and rob him going and coming. The farmers of Minnesota have evidently not heard of this terrible danger which lies lurking in ambush just over the line and prowls along with famished frame ready to devour them at the first opportunity. The following is a part of the resolutions adopted by the republican Fifth congressional district convention held at St. Cloud, Minn., on the second Tuesday in June:

Resolved, That we insist upon a material and judicious reduction of the tariff, &c.

Resolved, That we highly appreciate the services of our congressman, Knute Nelson, and feel a pride in the honorable distinction so justly attained by him. We heartily approve of his efforts to regulate inter state commerce and secure a reform and reduction of the tariff, and his action therefore has been in accord with the plainly expressed will of the republican party of this district.

At the election of 1886, Mr. Nelson received his districts unanimous vote with the exception of 1,200 prohibition votes. Mr. Nelson would have been reelected by the republicans of the fifth congressional district of Minnesota, but he absolutely refused a renomination. Either the republican farmers of Minnesota are not afraid of the wheat interest of Manitoba or they do not know of its dangerous existence. As a sincere tariff reformer I am in favor of Minnesota farmers being informed of this cereal dragon in Manitoba, so that they may vote intelligently and to their own interests. Now take this straw from 3,500 voters in the fifth district of Minnesota and lay it by the side of the Hon. J. B. White's little straw, viz: That protection is a good thing for the manufacturers but a bad thing for the laboring man and the "democratic lightning calculator" finds the grand total to be two very significant straws, either one of which is enough to break the republican free whisky laden camels back. W.

PENSIONS.

What a Democratic Administration Has Done For the Soldier and His Family.

WASHINGTON, July 23.—A comparison has been made of the number of applications for pensions during the fiscal year ending July 1, 1885, four months after President Cleveland's inauguration, with the number during the fiscal year ending July 1, 1888, is as follows:

	1888.	1885
Invalid	47,394	26,900
Widows	18,355	11,170
Increase	116,235	66,580
Total	181,989	104,659

The average force in the pension office in '85 was 66½; in 1888, 49½.

The number of applications filed during the past fiscal year in excess of the number filed in 1885 were as follows:

Invalid	20,440
Widows	7,185
Increased	74,695
Total	107,550

IT WON'T BAKE BREAD.—In other words, Hood's Sarsaparilla will not do impossibilities. Its proprietors tell plainly what it has done, submit proofs from sources of unquestioned reliability, and ask you frankly if you are suffering from any disease or affection caused or promoted by impure blood or low state of the system, to try Hood's Sarsaparilla. The experience of others is sufficient assurance that you will not be disappointed in the result.

Base Ball.

The following is the result of yesterday afternoon's games:

American Association.—Louisville, 10; St. Louis, 4. Cleveland, 6; Baltimore, 2.

If you wish to restore the bloom to your wasted cheek, and so improve your health that plumpness and strength will succeed emaciation and debility, purify your blood with Ayer's Sarsaparilla. This remedy will benefit you more surely and speedily than any other.

I purchased Ely's Cream Balm and am using it freely, it is working a cure surely. I have advised several friends to use it, and with happy results in every case. It is the one medicine above all others made to cure catarrh, and it is worth its weight in gold. I thank God I have found a remedy I can use with safety and that does all that is claimed for it. It is curing my deafness.—B. W. Sperry, Hartford, Conn.

Have You Any Idea What It Costs

TO MAKE A CHICAGO DAILY NEWS?

You haven't? Well, let us give you just a glimpse into the business, perhaps it will interest you.

To begin with, the work of the paper is divided into Seventeen Different Departments, each under its own responsible Superintendent. Let us take them in order as they stand on the weekly pay-roll:—

1. The Editorial Department.—This includes managing editors, city editors, telegraph editors, exchange editors, editorial writers, special writers, and about thirty reporters. THE DAILY NEWS staff is admittedly without a superior in the West, and numbers 56
2. The Telegraph Room.—To save time special wires are run into THE DAILY NEWS building, and the paper's own operators take the messages and hand them immediately to the telegraph editor. The number of operators is 8
3. The Compositor's Room.—When "copy" has passed the hands of the proper revising editor it goes to the type-setter. There are a good many of him in THE DAILY NEWS office—on an average . . 73
4. The Linotype Room.—But the compositor doesn't do all the type-setting. The "Linotype" machine "sets type" by casting a-line-of-type, on somewhat the same principle as the type-founder casts a single type. Fourteen of these machines are in use in THE DAILY NEWS office, and the number of persons required in this department is 29
5. The Artists' and Engravers' Department.—But the metropolitan daily now gives its readers not only reading matter, but also illustrations. By the aid of good artists, zinc etchers and photography by electric light THE DAILY NEWS is now printing the best newspaper illustrations in America. This takes the best service of skilled workers to the number of 7
6. The Stereotype Foundry.—The matter—type and pictures—being now "locked up" in the "forms" the work is next transferred to the foundry. A metropolitan daily no longer prints from its type. In order to print a large edition quickly it is necessary to *multiply the printing surfaces*, and this is accomplished by casting duplicate stereotyped plates, from which, after they have been fastened to the presses, the printing is done. Of stereotypers THE DAILY NEWS requires 8
7. The Press Room.—THE DAILY NEWS uses six double perfecting presses, capable of printing 100,000 complete papers per hour. To run these there are required men to the number of 26
8. The Mailing and Delivery Department.—"The mailers" and the delivery clerks handle over a million papers a week. The force numbers 25
9. The Engine Room.—To supply the motive power requires three steam boilers of 175 horse-power capacity, and three engines with an aggregate of 270 horse-power. All departments are lighted by the Edison incandescent system, which here comprises three dynamo machines and 800 lamps. The employes of this department number 5
10. The Circulation Department.—The paper is now a manufactured article, and it is the business of this department to develop the market for it. The average number of workers is 16
11. The Subscription Room.—All the subscriptions from out-of-town, whether of individual readers or wholesale news agents, pass through this department, and this department employs on the average . . . 17
12. The Business Office.—The general clerical work of the paper, such as receiving and caring for the advertisements—of which over fifteen hundred are received and handled every day—receiving and paying out cash, the general bookkeeping of the business, requires a counting-room force of 27
13. The Care of Building requires the constant service of three janitors 3
14. The Watchmen.—To insure perfect protection against risk of fire two watchmen are constantly on duty 2
15. The New York Office.—This engages the entire time of a general manager and assistant 2
16. The Washington Bureau.—In charge of its own special Washington staff correspondent 1
17. The Milwaukee Bureau.—To facilitate Northwestern news gathering, one man 1

From which it appears that the number of regular employees is 302

And the pay roll runs from $5,500 to $6,000 per week, aggregating during the year $300,000.

Then there is even a larger annual expenditure for white paper, and telegraph and cable tolls sometimes run nearly a thousand dollars a week. Take it all together the expenditures of THE DAILY NEWS for the year 1888 will vary very little from $900,000.

The foregoing takes no account of the special correspondents at hundreds of places throughout the country; of European correspondents; of fifteen hundred news agents throughout the Northwest who distribute THE DAILY NEWS to its out of town readers; of two hundred city carriers; of forty-two wholesale city dealers with their horses and wagons; of one hundred and fifty branch advertisement offices throughout the city, all connected with the main office by telephone, nor of the about three thousand newsboys who make a living, in whole or in part, selling THE DAILY NEWS in Chicago. This is what it costs the publisher to make a CHICAGO DAILY NEWS. It costs the reader to buy it one cent a day. Measured by the cost of its production, THE DAILY NEWS is worth its price, *isn't it?* The Chicago Daily News is sold by all newsdealers, or will be mailed, postage paid, for $3.00 per year, or 25 cents per month. OH! MY HEAD.

The pain from Neuralgia and its companion disease Rheumatism is excruciating. Thousands who could be quickly cured are needlessly suffering. Ath-lo-pho-ros will do for others what it did for the following parties:

Williamsport, Ind., Oct. 8, 1887.
Having been afflicted with neuralgia for the past four years, and trying almost everything, but in vain, I finally heard of Athlophoros. After taking one bottle I found it to be helping me, and after taking four bottles of Athlophoros and one of Pills, I found that I was entirely well. I think the medicine is positively a sure cure.
CHAUNCEY B. REDDICK.

Mt. Carmel, Ill., Dec. 26, 1887.
I have used Athlophoros in my family and find it to be the greatest medicine for neuralgia in existence and having had its fangs fastened upon me for the past 30 years I know whereof I speak. MRS. JULIA CHILTON.

CARL DUNDER.

His Talk with the Children.

Shildren, I like to shpeak mit you a leedle about some history. It vhas awful nice dot you know all about who you vhas und vhy you vhas porn in dis country instead of Shina. How many of you know about dot shentleman called Christopher Columbus? All! Vhell, dot vhas good. I shall now tell you of his life.

Vhen Christopher Columbus vhas a shmall poy, nopody takes him to be shmart. He vhas no shmarter ash my poy Shake. He vhas werry quiet. Sometimes he goes out by an apple tree und sits down und doan' shpeak to nopody for two hours. If some poy comes along und asks him to go fishing he doan' efen look oop. He vhas buried mit reflection, und his mudder called him seex times before he comes to dinner. What vhas dot reflection, shildren? Does he reflection on how he shall puy him a horse or a gun? Vhas he reflection on how he shall run avhay und become some cowpoy und Injunkiller? Oh, no! He vhas no sooch poy ash dot.

Efen at der early age of swelve years Christopher doan' believe dot Spain vhas all dis world. He beliefs he can go west und find some new country und people. He doan' say so, for maybe his fadder would lick him, und der school-master would call him a fool, but he keeps right on mit his thinking. Vhen some poy wants him to go after coons he doan' go, und if some games of base ball vhas around he nefer go to see her. All der time he vhas thinking about dot undiscovered country out West behind der ocean, but he doan' shpeak of him to nopody. If he does he vhas called some fools und idiits, und maybe he got a ride mit der patrol wagon.

Vhell, dot poy grows oop to be a man, und nopody can tell if he vhas thinking of politics or religion. One day he goes py der King und Queen und says he like to set out und find America. He doan' haf no money nor ships, und he like dot King to foot all der bills. Shiminy! but how dot King laughs all ofer him, and how dot Queen shpeaks to Columbus if his mudder knows he vhas outdoors! Columbus vhas so come ofer by confusion dot he goes right avhay und hides himself, und it vhas in der society news in der Sunday papers dot he vhas out of town.

Vhell, time goes on und Columbus feels petter. He doan' gif oop yet. He vhas like der toothache. Der more he thinks der harder he aches. He peliefs in America, und at last he goes py some rich mans und asks him to shpeak mit der King some more. So it vhas brought about at last dot der King gifs his consent und fits out three ships. He doan' pelief in Columbus, however, und he says to him:

"If you find dot America it vhas all O. K. If you doan' find her I send you by der work house so long as you live. Now go avhay und write me some postal cards occasionally und let me know if you vhas in good health."

Columbus vhas shaking in his boots, but he sails avhay und goes out of sight. In a few days somebody vhas awful scart und vhants to go back. Columbus buys him off mit feefty cents. Pooty soon some more sailors vhas scart, und a little later on eferypody begins to holler "fire!" und "police!" No land vhas in sight any more, und der peoples belief dey should be drowned. Columbus bribed und threatened und coaxed, und if a man vhas too bad he puts a head on him. At last he must gif oop. He shtands all alone. He calls der people around him und says:

"Doan' be so fresh. I pelief we vhas almost to America. I can shmell some Chicago River, und we shall keep on tree days more. If we doan' come py him den we shall go back home, und doan' you forget her?"

Dot vhas brave in him, und great vhas his reward. In two days somepody cries out: "Land ho!" und pooty queek all dose ships vhas by America. Columbus goes ashore und sees some Injuns und says he likes to be friends, und vhen a tousand vhas come around him he says:

"Fellow-citizens, it vhas no use. You vhas discovered, und I like you to make der best of her. Hooray for us! If you like to behave yourselves, I gif you some looking-glasses. If you like to fight, I vhill clean you out in two minutes by some clocks! Let me know at your earliest convenience how your feelings vhas."

Vhell, dose Injuns see dot he can't be bluffed, und so dey make friends mit him. He loads up mit wood und shtones und such tings, hires some Injuns to go home mit him und sails avhay for Spain. It was like some Fourth of Shuly vhen he comes pack. Some cannon shoots off, drums beat, flags fly und eferypody yells out: "Hooray! I told you so!" Columbus goes py der King und Queen und he makes a speech und shows all dot he prings home, und der King shteps down und feels of his head und says:

"You vhas a hustler from Hustletown, und if I doan' put you in der legislature und make some of those old moss-backs look seek den I vhas no shentlemans!"

Und der Queen shteps down und shmiles on him und says:

"Behold a great man! Nopody else in all dis world vhas knee-high to a grass-hopper. Come und haf some dinner mit us!"

Und dot vhas how we vhas discovered, shildren, und dot vhas all I haf to tell you.—*Detroit Free Press.*

MAGNOLIA

BALM gives a Ravishingly Beautiful Skin. Readily used and can't be detected. One trial convinces!

NOTES ON SCIENCE.

TO MAKE an ink for hand stamps that will not injure the rubber, mix together and dissolve from two to four drams of any selected aniline color, fifteen ounces of alcohol, and fifteen ounces of glycerine. The solution is poured on the cushion and rubbed in with a brush.

YELLOW diamonds are made blue of the purest water, for the time being, by being colored with a common indelible blue pencil, equalized by a rubbing with cotton or linen. A magnifying glass will fail to show the fraud, but alcohol, turpentine, or benzine will wash off the color.

FUMIGATION is said to have originated with Acron, a physician of Agrigentum, who is said to have first caused great fires to be lighted and aromatics to be thrown into them to purify the air, and thus to have stopped the plague at Athens and other places in Greece about 473 B. C.

AMONG the results of experiments made to ascertain the temperature at which various seeds germinate are the following: Rye and wheat at 32 degrees, barley and oats at 35; corn required 48, the turnip 32, the pea 35, the beet 40. The seed were planted in vegetable mold that was kept in receptacles heated to various temperatures.

TO CLEAN marble statuary, or any marble surface which has become soiled by dust and finger-marks, mix quicklime with strong lye so as to form a mixture having the consistency of cream and apply to it at once with a brush. Allow the composition to remain for a day or two, and then wash it off with soap and water, whereupon the marble will appear as though it was new.

A REMARKABLE imitation of black walnut may be manufactured from poor pine, the quality and appearance of the article being such as to defy detection except upon very close examination. To accomplish, one part of walnut peel extract is mixed with six parts of water, and with this solution the wood is coated. When the material is half dry, a solution of bichromate of potash, with water, is rubbed on it, and the made walnut is ready for use.

A VERY good quality of artificial ivory can be manufacted from the bones and hides of animals. The bones are macerated and bleached in chloride of lime for two weeks; then heated by steam, together with the hides, until a fluid mass is formed, and to this a small quantity of alum is added. After filtering and drying in the air it is hardened in an alum bath, and yields white, tough plates, which closely resemble ivory, and are more easily worked than the natural product.

Not a particle of calomel, nor any other deleterious substance, enters into the composition of Ayer's Pills. On the contrary, this medicine is carefully compounded from the curative properties of purely vegetable substances. Try it.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle. mar-17-1y

WHAT AILS YOU?

Do you feel dull, languid, low-spirited, lifeless, and indescribably miserable, both physically and mentally; experience a sense of fullness or bloating after eating, or of "goneness," or emptiness of stomach in the morning, tongue coated, bitter or bad taste in mouth, irregular appetite, dizziness, frequent headaches, blurred eyesight, "floating specks" before the eyes, nervous prostration or exhaustion, irritability of temper, hot flushes, alternating with chilly sensations, sharp, biting, transient pains here and there, cold feet, drowsiness after meals, wakefulness, or disturbed and unrefreshing sleep, constant, indescribable feeling of dread, or of impending calamity?

If you have all, or any considerable number of these symptoms, you are suffering from that most common of American maladies—Bilious Dyspepsia, or Torpid Liver, associated with Dyspepsia, or Indigestion. The more complicated your disease has become, the greater the number and diversity of symptoms. No matter what stage it has reached, **Dr. Pierce's Golden Medical Discovery** will subdue it, if taken according to directions for a reasonable length of time. If not cured, complications multiply and Consumption of the Lungs, Skin Diseases, Heart Disease, Rheumatism, Kidney Disease, or other grave maladies are quite liable to set in and, sooner or later, induce a fatal termination.

Dr. Pierce's Golden Medical Discovery acts powerfully upon the Liver, and through that great blood-purifying organ, cleanses the system of all blood-taints and impurities, from whatever cause arising. It is equally efficacious in acting upon the Kidneys, and other excretory organs, cleansing, strengthening, and healing their diseases. As an appetizing, restorative tonic, it promotes digestion and nutrition, thereby building up both flesh and strength. In malarial districts, this wonderful medicine has gained great celebrity in curing Fever and Ague, Chills and Fever, Dumb Ague, and kindred diseases.

CONSUMPTION,

which is **Scrofula of the Lungs,** is arrested and cured by this remedy, if taken in the earlier stages of the disease. From its marvelous power over this terribly fatal disease, when first offering this now world-famed remedy to the public, Dr. Pierce thought seriously of calling it his "CONSUMPTION CURE," but abandoned that name as too restrictive for a medicine which, from its wonderful combination of tonic, or strengthening, alterative, or blood-cleansing, anti-bilious, pectoral, and nutritive properties, is unequaled, not only as a remedy for Consumption, but for **all Chronic Diseases** of the

Liver, Blood, and Lungs.

For Weak Lungs, Spitting of Blood, Shortness of Breath, Chronic Nasal Catarrh, Bronchitis, Asthma, Severe Coughs, and kindred affections, it is an efficient remedy.

Sold by Druggists, at $1.00, or Six Bottles for $5.00.

Some fellow writes the *Gazette* a letter, trying to account for the democratic majority in this county. There is not a sensible point in the communication, save an extract from THE SENTINEL. A man might handle the question at issue and get a respectful hearing without going out of his way to insult the German people, whom he vaguely classes as "Swabenfritzes" and "Winnerwurst Bills." The *Gazette* ought to send its fool killer after that correspondent.

Captain Diehl and a chosen posse of police officers visited the gaming parlors of Latham and Harmon, on Calhoun street, last night, and captured a social party of ten, who put up $17 each and signed pleas of guilty. There are four other faro rooms on Calhoun street. Let the good work go around. It is proper and doesn't smack of favoritism. Besides this the gaming business must be suppressed and the law says their utensils shall be confiscated and destroyed.

☞The Business Men's exchange held a lively meeting last evening. The necessity of a free public library was discussed, as was also the feasability of the exchange erecting a board of trade building of its own. A committee composed of Messrs. S. Pottlitzer, G. W. Seavy and Fred Eckart was appointed to pledge the support of the business community to the Postal Telegraph company in the event of that company extending its line to this city. An effort will be made to bring the company to this city. It now has a line at Auburn.

The *Gazette* this morning reprints a letter from W. H. Smith, to the Cincinnati *Commercial Gazette*. This is the same Smith who was Harrison's lieutenant in the latters preliminary canvass for the presidential nomination. It will be recalled that when General Harrison and Mr. Smith visited this city the *Gazette* denounced Smith as a "liar," and "a disreputable scoundrel" and advised General Harrison to not associate with him. Mr. Smith has not changed since the *Gazette* sized him up. The *Gazette* readers can take Mr. Smith's words for what they are worth.
